Siddharth R Kaulagi

Supply Chain | Industrial Engineering | Lean & Operations Management
+91 8050463960 | siddharthkaulagi08@gmail.com | Portfolio | LinkedIn | GitHub

Education

B.M.S. College of Engineering — Bengaluru, India
B.E. in Industrial Engineering & Management | CGPA: 8.18 — *Graduation: 2026*

PRISM PU Science College — Dharwad, India
Pre-University Course (Class XII) | 96% — *2021*

Experience

Supply Chain Job Simulation | GE Healthcare — Jan 2026 – Feb 2026

- Reviewed GEnx-1B engine drawings, Bills of Materials, and Geometric Dimensioning and Tolerancing (GD&T) specifications to evaluate non-conforming components; coordinated quality disposition decisions across procurement and engineering teams.
- Coordinated corrective action planning and compliance documentation across cross-functional teams including operations, quality, and logistics; mirrored interface responsibilities across production planning and supply chain functions.

Agentic AI Intern | Innomatics Research Labs — Feb 2026 – May 2026

- Completed a structured learning internship covering Python fundamentals, FastAPI, and AI agent concepts through progressive hands-on assignments to understand how modern digital tools function.

Projects

Supply Chain & Distribution Analytics System | GitHub

- Built a 10-module supply chain planning system in Excel covering demand forecasting (moving average, exponential smoothing, MAPE tracking), inventory optimization, and supply planning across 320+ orders and 8 vendor nodes.
- Analyzed supply chain performance across inventory, suppliers, logistics, and costs; created structured reports and a what-if simulator to compare different planning scenarios and support better operational decisions.

Unified Retail Intelligence Platform (URIP) – AI-Assisted Build | Live | GitHub

- Designed and deployed an end-to-end supply chain planning platform covering demand forecasting, ABC/XYZ/FSN inventory classification and revenue contribution tracking across product categories.
- Built independently using Claude, Antigravity, Gemini, and Kimi K2 as primary build tools; integrated demand signals, inventory data, and supplier inputs into a unified planning dashboard with automated reporting.

IoT-Enabled Solar Energy Optimization System for Agricultural Use| Drive

- Built a single-axis solar tracker using Arduino Uno, Light Dependent Resistor (LDR) sensors, servo motor, Maximum Power Point Tracking (MPPT) module, and NodeMCU (ESP8266) for automated sun tracking and wireless data transmission to Blynk IoT platform.
- Integrated soil moisture, temperature, and humidity sensors for real-time agricultural monitoring, enabling higher energy capture and reduced water consumption through precision irrigation control.

Skills & Core Competencies

Supply Chain Management: Demand Forecasting, Inventory Optimization, Supply Planning, Distribution Planning, Logistics Operations, Supplier Coordination, ABC/XYZ Classification, Sourcing & Procurement

Lean & Operations: Lean Manufacturing, 5S and Kaizen, Root Cause Analysis, Process Optimization, Process Documentation, Pareto Analysis, Cross-Functional Coordination

Analytics & Tools: Advanced Excel (Pivot Tables, Lookup Functions), Power BI (KPI Dashboards), Google Workspace, SAP MM (Beginner), Optimizer ERP

AI & Productivity Tools: Claude, GPT-5, Kimi K2.5, GitHub Copilot, AI-Assisted Research & Development

Soft Skills: Analytical Thinking, Problem Solving, Active Listening, Teamwork, Adaptability, Communication

Certifications

- **Lean Six Sigma White Belt** – The Council for Six Sigma Certification (CSSC) / Six Sigma Online [View All]
- **SAP S/4HANA Supply Chain for Transportation Management** – SAP
- **Job Simulations** – Supply Chain (GE Healthcare), Operations (Goldman Sachs), Business Analytics (Tata)

Additional Information

- **Languages:** English | Kannada | Hindi
- **Leadership & Events:** Volunteer Coordinator, TOPS Convention 2024 – Indian Society for Quality (ISQ) at BMSCE | Coordinated logistics for department and college-level technical and cultural committees
- **Interests:** Creative Writing, Sketching & Illustration, Badminton.
