Siddharth R Kaulagi

Supply Chain Analytics | Inventory Optimization | KPI Management | Demand and Supply Planning
+91 8050463960 | siddharthengineer08@gmail.com | LinkedIn | GitHub | Portfolio

Education

BMS College of Engineering, Bengaluru Graduation: Aug 2026
Bachelor of Engineering in Industrial Engineering and Management *CGPA: 8.18*

Experience

Supply Chain Job Simulation Jan 2026 – Feb 2026
GE Healthcare via Forage *[Certificate]*

- Analyzed procurement and quality documentation to identify supply chain exceptions and non-conformances; performed root cause analysis and developed structured corrective action recommendations for cross-functional teams.
- Ensured data integrity across compliance and supply records; prepared analytical reports translating findings into clear action plans for operations, quality, and logistics stakeholders.

Agentic AI Intern Feb 2026 – May 2026
Innomatics Research Labs *[Certificate]*

- Completed a structured learning internship covering Python fundamentals, FastAPI, LangChain, and AI agent concepts through progressive hands-on assignments.
- Built foundational projects across workflow automation and analytics tasks, strengthening problem-solving and structured thinking skills.

Projects

Supply Chain and Distribution Analytics System | GitHub

- Built a 10-module supply chain analytics system in Excel analyzing demand and supply plans across 8 vendor nodes and 320+ orders; investigated abnormal demand and inventory signals using moving average and exponential smoothing forecasting with MAPE tracking.
- Developed KPI dashboards tracking on-time delivery, inventory turnover, fill rate, and forecast accuracy; interpreted KPI gaps to identify root causes and built repeatable analytical reports for supply chain improvement actions.
- Built a what-if scenario simulator to model inventory optimization trade-offs and supply plan adjustments under changing demand, lead time, and safety stock assumptions — enabling data-backed decision making before execution.

Global Supplier Transition and Inventory Optimization (Power BI) | View

- Analyzed supply chain performance data across 8 nodes using Power BI dashboards with DAX measures; interpreted KPIs covering inventory turnover, Days Sales of Inventory, on-time delivery, and cost variance to identify improvement opportunities.
- Applied ABC-XYZ inventory classification to optimize planning parameters and refine safety stock levels; documented analytical findings and supply chain improvement recommendations for stakeholder review.

AI-Assisted Build | Unified Retail Intelligence Platform (URIP) | Live | GitHub

- Designed and deployed an end-to-end supply chain analytics platform covering demand forecasting, ABC/XYZ/FSN inventory classification, replenishment planning, and BI dashboards; built automated repeatable reporting for supply and inventory insights.
- Built independently using Claude, Antigravity, Gemini, and Kimi K2; integrated demand signals, inventory data, and supplier inputs into a unified planning and analytics dashboard.

Skills & Core Competencies

Supply Chain Analytics: Demand and Supply Planning, Inventory Optimization, KPI Analysis and Management, Root Cause Analysis, Materials Planning, Plan for Every Part Concepts

Process Improvement: Lean Manufacturing, Six Sigma (White Belt), Continuous Improvement, Pareto Analysis, Process Documentation, Cross-functional Coordination

Analytics and Tools: Advanced Excel (Pivot Tables, Lookup Functions), Power BI, Google Workspace, Optimizer ERP, SAP Concepts (Basic)

AI & Productivity Tools: Claude, GPT-4, Kimi K2.5, GLM-4, Gemini, GitHub Copilot, AI-Assisted Research and Build

Professional Skills: Analytical Thinking, Manages Complexity, Data Integrity, Structured Reporting, Stakeholder Communication

Certifications

- **Lean Six Sigma White Belt** – The Council for Six Sigma Certification (CSSC) [View All]
- **SAP S/4HANA Supply Chain for Transportation Management** – SAP
- **Job Simulations** – Supply Chain (GE Healthcare), Operations (Goldman Sachs), Business Analytics (Tata)

Additional Information

- **Languages:** English | Kannada | Hindi
- **Leadership & Events:** Volunteer Coordinator, TOPS Convention 2024 – Indian Society for Quality (ISQ) at BMSCE | Coordinated logistics for department and college-level technical and cultural committees
- **Interests:** Creative Writing | Sketching & Illustration | Badminton
